NATIONAL PROJECT PRICE LIST 2024

The project price list could meet your specific needs and save you money on any kind of carpet restoration project. After the project is completed, pricing would be determined based on the quantity of spots removed (Total Spot Points Used). For example, if the quantity of spot points removed were 1000, the price code for the assumed project would be column 2. This is a great plan whether you are remodeling or simply want to bring the hotel rooms or common areas to the inspectors' standard. The Project Price List is designed to provide you with the best possible price. There are 7 different Price columns with volume discounts up to 40% based on the size of a project and quantity of spot points removed. The table below will show you the types of our services and the Spot Point values attributed to each one. Minimum service charge is \$ 300.00 per service call. 1.5% finance charge applies to all past due amount per month. All applicable taxes and assessment levied by any local or federal governmental taxing authority for the services provided are the sole responsibility of the customer. Customer must promptly remit all the required taxes directly to the taxing authority.

PROJECT PRICE CODE			PRICE LIST		1	2	3	4	5	6	7
Project Total Spot			Up to 499		500	1000	1500	2500	3500	5000	8000
